STUDENT ASSISTANT – TU DELFT

Student Assistant at the Delft Design for Values Institute | December 2025 - present

Supporting coordination, content development, and interdisciplinary exchange on values-driven design across architecture, technology, and society.

INTERNSHIP AT MVRDV IN ROTTERDAM

Architectural Assistant in the DAS team | March - August 2025

Design Assistant at MVRDV's DAS Studio, contributing to the IPAI Communication Center with a focus on concept development, facade design, and visualization.

SUSTAINABILITY AWARD "TRANSFORMATHON" BY BAUFRITZ

Leading role in the "Supertecture" team | September 2024

Recognized award for exceptional contributions to sustainable architecture as part of "The Supertecture project", focusing on innovative reuse of materials in circular construction, with a special emphasis on practical implementation.

CHURCH DECONSTRUCTION & MATERIAL REUSE

Coordination of a volunteer team | August 2024

Mahogany flooring as a flagship example of circular (de-)construction: The reclaimed materials will be used in future architecture projects. The project was supported by Hilti and documented by ARTE for an upcoming documentary.

BACHELOR THESIS – THE SUPERTECTURE PROJECT

Technical University of Munich | July 2024

The thesis explored innovative methods for material reuse and resource-efficient building practices, focusing on practical solutions for a real-world architectural project. Chair of Architecture and Timber Construction, Prof. Birk. Final evaluation: 1,3

INTERNSHIP AT HTB (HOCHTIEF SUBSIDIARY)

HTB Engineering and Construction São Paulo | August - October 2023

While working full-time on the Teatro Cultura Artística restoration in São Paulo, I gained hands-on construction management experience and expanded my technical Portuguese vocabulary through daily site inspections and outdoor space design.

INTERNSHIP AT RSE+

RSE+ Architekten Ingenieure GmbH Göttingen | April 2020

This internship provided my first exposure to the field of architecture and helped solidify my career choice. I worked in a small office, where I assisted with daily tasks such as revising CAD plans and participating in site visits
